## REP. CAM WARD COMMENDS CREATION OF HOUSE COMMITTEE ON MENTAL HEALTH

Alabaster, Alabama- Recently Alabama Speaker of the House Seth Hammett established a House Ad Hoc Committee on Mental Health.

"I think it is commendable that a committee like this is now in place to provide a forum for mental health advocates in our state," said Representative Cam Ward.

The committee will consist of seven state representatives from throughout Alabama. The members are: Representatives Mike Ball, Billy Beasley, Randy Davis, Ron Grantland, Mike Millican, Cam Ward, and Pebblin Warren.

This committee will allow for the Department of Mental Health to bring issues of urgency in Alabama directly to a committee that can work to solve some of these problems.

As Chairman of the Alabama Autism Task Force Representative Ward has been encouraging more state support for autism and other mental health patients in our state.
